

## Who I Am

I am excited to excel in a new career in web development. Boot-camp taught me the things that are needed to kickstart this new vocation. My years of dedicated real world experience have taught me the skills that you just can't learn in any school. I have always enjoyed web development as a hobby. My first website was built with HTML 3 when that was the state of the art and I have dabbled ever since. Early on I learned HOW to learn and this essential skill has served me well my entire life. I expect that it will continue to serve me well in this ever evolving industry. All that I ask is for the opportunity to show you how I can put this to work for you.

## My Skills

- Adaptability
  - JavaScript
  - Full Stack MERN
  - Express Server
  - CSS frameworks
  - Efficient Upskilling
  - HTML
  - React JS
  - SEO Fundamentals
  - RESTful API's
  - Strong Work Ethic
  - CSS
  - SQL and MongoDB
  - Agile Development
  - PWA's
  - Self-Starter
  - Git
  - GraphQL
  - jQuery
  - Node.js
- More on my portfolio

## My School

04/2022 - 07/2022

University of Denver | Full Stack Coding Bootcamp

## My Experience

10/2022 - Current

edX | Teacher Assistant

I am thoroughly enjoying my current role helping students navigate the same boot-camp that I recently graduated from. Being constantly immersed in the world of coding has helped me to sharpen my skills and helping others find their own solutions has truly upped my debugging game.

04/2012 - 02/2022

Viator Trucking LLC | Owner Operator Truck Driver

I was an owner/operator truck driver for 10 years. I handled every aspect of the business from financial planning to fixing the truck and all B2B transactions. Of course, I also did a lot of driving. This has given me a strong working knowledge of what it takes to get any job done. Proper planning makes for efficient execution.
